

Representatives Charles "Chip" Pickering and Gene Green apparently are not paying subscribers of XM Radio and are trying to impose restrictions on something they clearly are clueless as to what benefits there are to subscribers whom choose to pay for the services and entertainment XM Radio sends out clearly across the country. Listeners like myself are definitely opposed to HR 4026 and hopefully the FCC will understand that it's our right to receive what we do from XM Radio since we pay for the service and Representatives Charles "Chip" Pickering and Gene Green don't! Thank you for your time.

Sincerely,  
Kelly R Huntley
